FAQs

How can I learn more about the app before downloading?

To learn more about our iPhone app, you can watch our demo video here or visit the App Store.
To learn more about our Android app, you can watch our demo video here or visit the Google Play Store.

Which Card accounts can I manage in the Amex Mobile app?

App and app features are available for all American Express® Card accounts in the United States, with the exception of American Express prepaid Cards and cards issued by non-American Express issuers.

You cannot manage any international Cards you may have in the U.S. Amex Mobile app. In order to provide you with the best possible experience, we have created applications specific to the country where the Card was issued. If you are a non-U.S. Card Member, you can search in the App Store or Google Play to see if there is an Amex application specific to your country or you can visit us via your mobile browser.

Which devices is the app available for?

The Amex® Mobile app is available for iPhone and iPad (running iOS 8.0+) and Android phone and tablet (running Android 4.4+) through the App Store and Google Play Store. If you already have an older version of the app installed on your phone running a lower operating system, certain features may not be available to you.

If you have a Windows phone, you can learn more about the Amex Windows app in the Windows Phone Store, but note that features of the app may differ. For all other devices, please visit our mobile-optimized website by visiting americanexpress.com on your mobile device.
